 <h2 style="margin: 0;">Glossary</h2>	View Full Glossary
--	------------------------------------

Accident / Damage Indicator
 CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada. Different information in a vehicle's history can indicate an accident or damage, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. Not every accident or damage event is reported and not all reported are provided to CARFAX. Details about the accident or damage event when reported to CARFAX (e.g. severity, impact location, airbag deployment) are included on the Vehicle History Report. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic.

- According to the National Safety Council, Injury Facts, 2007 edition, 7% of the 245 million registered vehicles in the U.S. were involved in an accident in 2005. Over 75% of these were considered minor or moderate.
- CARFAX depends on many sources for its accident / damage data. CARFAX can only report what is in our database on 11.Jan.2010 11:42:31. New data will result in a change to this report.

Michigan Police Reports:

- Do not include an assessment of damage severity
- Are required if the estimated damage exceeds \$400
- Are released to CARFAX approximately two weeks after the accident date

First Owner
 When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ford or Lincoln Mercury Recall
 The Ford Motor Company provides Carfax with recall information regarding safety, compliance and emissions programs announced

since 2000 for a specific vehicle. For complete information regarding programs or concerns about this vehicle, please contact a local [Ford or Lincoln Mercury Dealer](#).

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Rating:

LEGEND

●●●●●●	Good
●●●●○	Acceptable
●●●○	Marginal
●●○	Poor
●○○○	Very Poor

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - [full-width frontal crash test](#) , [side impact crash test](#) , and [rollover resistance](#) . The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

IIHS Crash Test Results

Frontal Offset Crash Test

Rating:

Overall Evaluation	A
Structure/Safety Cage	A
Injury Measures	
Head/Neck	G
Chest	G
Leg/foot, left	A
Leg/foot, right	G
Restraints/dummy kinematics	A

LEGEND

- G** Good
- A** Acceptable
- M** Marginal
- P** Poor

Important: Frontal crash test ratings can be compared only among vehicles of similar weight.

Crash Tested Vehicle: [Details](#) | [Vehicle Specifications](#)

Insurance Institute for Highway Safety (IIHS) uses frontal offset and side impact crash tests to estimate the crashworthiness of a vehicle. These results are good indicators of how a frontal and side impact can structurally impact a 2003 FORD WINDSTAR LX . The crashworthiness data for this 2003 FORD WINDSTAR LX was provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. [Learn more](#) about these crash test results.

Rear Crash Description:

Rear into flat barrier
Rear into pole

Average Damage Per Test

Front Crash Cost:

Not tested by IIHS
Not tested by IIHS

Rear Crash Cost:

Not tested by IIHS
Not tested by IIHS

Not tested by IIHS

Insurance Institute for Highway Safety (IIHS) conducts four 5 mph crash tests to assess bumper performance. These results convey how well this 2003 FORD WINDSTAR LX bumpers will protect the car body from damage in low-speed collisions. Low-speed damage repair costs are obtained from the Insurance Institute for Highway Safety, Highway Loss Data Institute.

[Back to top](#)

Injury, Collision, & Theft Indicators

The Insurance Institute for Highway Safety (IIHS) does not provide injury, collision or theft information for this 2003 FORD WINDSTAR LX .

Index:

- [Injury Index](#)
- [Collision Index](#)
- [Theft Index](#)

Score:

No data from HLDI
No data from HLDI
No data from HLDI

Rating:

No data from HLDI
No data from HLDI
No data from HLDI

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. Injury, collision, and theft indicators are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute.

[Back to top](#)

Safety Recalls

NHTSA Safety Recalls:

Important: The following recalls were issued for the 2003 FORD WINDSTAR LX by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 2003 FORD WINDSTAR LX still has open recalls that require repair, CARFAX recommends contacting an **authorized dealership** for more information.

Recall date:	11-21-2003
Units potentially affected:	257,119
NHTSA campaign number:	03V459000
Defective part or component:	SEATS: MID/REAR ASSEMBLY
Description:	Certain minivans fail to comply with the requirements of Federal Motor Vehicle Safety Standard No. 225, (child restraint anchorage system). During testing, a third row bench floor-to-seat latch released before the strength requirement was met. Identical latches are used in the second row of seats. If the latches on the second or third row seats of the vehicle release in a crash, the potential for occupant injury is increased. Dealers will replace the seat-to-floor latches on the second and third row of seats. Owner notification began on November 21, 2003. Owners should contact Ford at 1-800-392-3673.

This 2003 FORD WINDSTAR LX safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.

New Car Test Drive Review

NewCar **TestDrive**.com

Category:

Summary:

Review:

Maximum minivan

By John Rettie, NewCarTestDrive.com

Ford Windstar offers lots of power, lots of room, and the availability of most of the latest minivan features. It scores well in government crash testing and offers side-impact airbags as an option. New active safety features can help you avoid an accident in the first place. Its versatile seating arrangement works well. The Windstar is a dated product, however, and lacks the sophistication of the newest minivans. Its brakes are unimpressive and its soft suspension wallows in corners and dives under hard braking. An all-new Windstar is on the horizon. Until then, look for deals on the 2003 models.

Overview:

Ford Windstar is one of the quickest minivans on the road. Its strong, 200-horsepower V6 delivers quick acceleration performance. Among the largest of the so-called minivans, Windstar offers a versatile interior that can carry up to seven people or big loads of cargo. It comes with dual sliding doors, and can be trimmed with video systems and other options to satisfy any taste.

For eight straight years, the Windstar has earned the Federal government's best crash-test rating: five stars each for driver and front passenger. With its optional side-impact air bags, Windstar achieves a double five-star rating in the government's new side-impact tests as well. Safety is improved further for 2003, as the Windstar gets Ford's AdvanceTrac electronic stability enhancement system. AdvanceTrac detects skidding and actively corrects the Windstar's heading by selectively applying individual brakes and/or reducing engine power. That could make the difference between a close call and a collision on a rain-slicked or ice-covered road. Additional refinements for 2003 focus on reducing noise.

The current Windstar is nearing the end of its run, and an all-new Windstar is on the horizon.
